

# STRIKEMAX™

# POLY MAX™

SPRAY TANK ADJUVANT

**Enhanced  
Wetting**

**Adhesion**

**On-Target  
Delivery**

**PolyMax™** provides Extended Performance to your pest control product applications. Specific polymers were selected based on the unique challenges and requirements of professional pest control operators. PolyMax improves the consistent spreadability, and adhesion of products. Use PolyMax whenever on-target product delivery, coverage and longevity are important.

## **Application Instructions:**

### **General Guidelines:**

Fill tank with 1/2 amount of water. Add PolyMax while maintaining agitation. Add desired inputs, then top off remaining volume of water for application.

### **Regular Conditions:**

0.5 fl. oz. PolyMax per 1 gal. of water  
1:250 dilution

### **Extreme Conditions:**

2.5 fl. oz. PolyMax per 1 gal. of water  
1:50 dilution
