### **Target Donates to Tsunami Relief in Southeast Asia**

**Santa Fe Springs, CA** – Target Specialty Products donated \$5,040 to the American Red Cross - Southeast Asia Tsunami Relief Fund. In an effort to assist the millions of people who suffered the devastating effects of the tsunami in Southeast Asia, Target initiated a fundraising campaign amongst its associates and agreed to match all funds donated. A portion of the fundraising campaign included a raffle for a beautiful, hand-made quilt donated by Robin Gallagher, the mother of one of Target's branch associates in Santa Fe Springs, California.

Southeast Asia and the surrounding areas throughout the Indian Ocean continue to clean-up and rebuild from the destruction of the massive earthquake and deadly tsunami. Walls of water swept through resorts and small towns wiping out everything. Areas once referred to as paradise are now scenes of catastrophic devastation as the strongest earthquake since 1964 shook this region of the world.

Target Specialty Products is the west's leading wholesale distributor of specialty agricultural chemicals, fertilizers, application equipment, service and education.
