// The benefits of the Bayer RMS

The Bayer RMS is a wireless, tireless network of high-tech sensors that provide 24/7 rodent monitoring and real time rodent program verification.

This year, we're also offering a new incentive: If you spend over \$5,000 during the promotion, you could get a six-month Bayer Rodent Monitoring System (RMS) subscription for free, which allows you to monitor traps with high-tech sensors and get alerts wirelessly.*

RMS enables:

- // Leverage automation to enhance the quality of your entire service
- // Monitor 24/7, get real-time capture alerts
- // Shift your time from checking empty traps to enhanced IPM inspections, corrective actions and preventive measures

Contact your Target Specialty Products representative for more information on RMS.

*This offer covers any Rodent Monitoring System up to 100 sensors + up to two gateways + Digital Pest Management platform and app for a single site. (This is approximately \$2,500 in free subscription fees for a PMP to take full advantage of real-time monitoring.)

Program is limited to one system and site per company. Discount applicable on fully executed contracts only. License, terms and conditions for RMS are applicable. RMS systems operate on 36-month agreements, of which the first six months will be covered by this program. RMS subscription pricing will start on the seventh month of service. For example, a 100-sensor system with two gateways incur a monthly subscription fee of \$455 per month. Coverage of RMS promotion includes all applicable subscription, platform costs and support. Qualifying PMPs must purchase appropriate multicatch, snap trap or bait stations compatible with RMS. This is a limited offer, while supplies last.
